

# Engaging Community Partners

1

## Engagement Rubric

*Accessibility: Document and Video*

Provides guidance on methods for engaging community partners throughout each phase of a research study, laying the foundation for equitable partnerships.'

2

## Engaging Community-Driven Research

*Accessibility: Video Module*

'A video module featuring patients, clinicians, and others describing why people engage in research, their challenges and experiences.'

3

## Understanding and Sharing Research Findings

*Accessibility: Video Module*

'How community partners support the research team interpret collected data and determine findings. This module also explores how a study's findings can be used in different settings and how they're shared to inform healthcare choices.'
